

USA Election 2020: Vedic Astrology Analysis

Author: Ashok Immaneni

Date: Sep 12, 2020

I am using a simple model for computing relative strengths of the candidates. Here are the eight influences:

1. Maha dasa planet: -3 to +3
2. Antara dasa planet: -3 to +3
3. Pratyantara dasa planet: -3 to +3
4. Saturn transit from natal moon sign: 0 to 3
5. Jupiter transit from natal moon sign: 0 to 3
6. Rahu transit from natal moon sign: 0 to 3
7. Ketu transit from natal moon sign: 0 to 2
8. Saturn, Jupiter or Rahu return: 0 to 2 (bonus points)

For each candidate, I compute total number of points and the percentage out of 20. Then I compare the strengths of the two candidates to see which one is higher. Refer to the appendix for the candidate chart information.

George W Bush: Saturn-Mars-Sun (+3, +3, 0). Transits: Saturn in the 9th (0), Jupiter in the 9th (3), Rahu in the 10th (3), Ketu in the 4th (2). Total points: 14. Strength: 70%.

Al Gore: Rahu-Saturn-Jupiter (+3, +3, 0). Transits: Saturn in the 6th (3), Jupiter in the 6th (0), Rahu in the 7th (3), Ketu in the 1st (2). Total points: 14. Strength: 70%.

John Kerry: Mercury-Mercury-Rahu (0, 0, +3). Transits: Saturn in the 3rd (3), Jupiter in the 5th (3), Rahu in the 12th (0), Ketu in the 6th (0). Total points: 9. Strength: 45%.

Saturn in the 12th house is creating enormous resistance from Jan 2019 till July 2021 (current antara dasha). The worst time was during Venus pratyantara dasha, Dec 2019 - Apr 2020, when he had to deal with impeachment and peak of Covid panic. He has enough power and persistence to fight back now, as the remaining pratyantara dasha planets (Mars starting Sep 3, 2020, Rahu starting Oct 27, 2020 and Jupiter starting Mar 15, 2021) can balance the negative Saturn effect. The following Mercury antara dasha is very bright.

Rahu-Ketu return on Oct 14, 2020 is extremely beneficial, as they are triggering the 10th house of power and 4th house of hidden support. Also Rahu transit in the 7th house (from Scorpio natal moon) can bring unexpected public support from non-white people after Sep 19, 2020.

Joe Biden: Jupiter-Rahu-Jupiter (+3, +3, +3). Transits: Saturn in the 10th (0), Jupiter in the 9th (3), Rahu in the 2nd (0), Ketu in the 8th (0). Total points: 12. Strength: 60%.

Biden transitioned from Mars (12th house planet) antara dasha to Rahu (10th house planet) antara dasha on Apr 27, 2020. He came out of nowhere and won the primary. Rahu magic!

Transiting Ketu in the 8th house (from his Aries natal moon) and retrograde Mars in the 12th house might create serious health issues starting early October, 2020. There is a chance he might be replaced with someone else. The only possibilities that come to my mind are Michelle Obama and Hillary Clinton. So I am including the analysis of their charts.

Kamala Harris: Rahu-Mercury-Mercury (+3, +3, +3). Transits: Saturn in the 10th (0), Jupiter in the 9th (3), Rahu in the 2nd (0), Ketu in the 8th (0). Total points: 12. Strength: 60%.

Harris transitioned from Saturn antara dasha to Mercury antara dasha on July 2, 2020. Mercury is a very benefic planet for her.

Michelle Obama: Mercury-Venus-Sun (+2, +3, +3). Transits: Saturn in the 12th (0), Jupiter in the 11th (3), Rahu in the 4th (0), Ketu in the 10th (0). Total points: 11. Strength: 55%.

Hillary Clinton: Sun-Venus-Saturn (+2, +3, +3). Transits: Saturn in the 12th (0), Jupiter in the 11th (3), Rahu in the 4th (0), Ketu in the 10th (0). Total points: 11. Strength: 55%.

Global Changes Influencing US Election

Saturn-Pluto transit in Capricorn 2020-2022

Pluto transit through Capricorn (which happens once in 230 years) stimulates destruction of old global power structures and creation of new global power structures. Note that USA declaration of independence in 1776 happened during the previous Pluto transit in Capricorn. During the current transit, Pluto will be in Capricorn 2020-2039.

The first three years 2020-2022 is special due to Saturn-Pluto conjunction in Capricorn. Most changes will happen during these three years. Accelerated changes will happen when Jupiter transits through Capricorn, the first phase Apr-June 2020 and the second more powerful phase Dec 2020 - Mar 2021.

The preparation for global power changes started in 2014 with the election of Narendra Modi in India. Then the first Brexit referendum in 2016 followed by the election of Donald Trump in USA. In 2019 Narendra Modi was reelected with more majority and Boris Johnson was elected in UK to complete Brexit deal and regain sovereignty. There is increased support for nationalist anti-globalist anti-establishment leaders all over the world.

India horoscope and Narendra Modi's horoscope indicate rise of India as a super power during this decade. China horoscope indicates accelerated downfall during 2020-2022. Pakistan horoscope indicates downfall as well.

Who is in alignment with these global changes - Donald Trump or Joe Biden?

Rahu-Ketu transit in Taurus-Scorpio Sep 19, 2020 - Mar 16, 2022

From Mar 23, 2019 to Sep 19, 2020, Rahu is in Gemini and Ketu is in Sagittarius. This is the most unstable time on the planet during the recent years, due to amplified ether-air-fire energies. Gemini is an ether-air sign and Rahu is an airy planet. Sagittarius is an ether-fire sign and Ketu is a fiery planet. This is typically the global chaos window that occurs every 18.5 years. Media gains power during this phase, as people's minds become vulnerable to propaganda. People tend to become more radical and violent.

Fortunately, we are moving into a stable 1.5 year phase on Sep 19, 2020. Taurus is a water-earth sign and Scorpio is a fire-water sign. Nodes in these signs amplify fire-water-earth energies which are comforting and grounding. Media loses power during this phase, as people are more focused on their safety, prosperity and pleasure. People tend to seek truth instead of believing stories pushed by the media.

Who gains power during this phase - Donald Trump or Joe Biden?
